If you have any questions, please contact Hazelene Johnson, Project Coordinator at [hjohnson@njha.com](mailto:hjohnson@njha.com)

### What are Virtual Schwartz Rounds?

VSR are remote convenings that take place online using zoom. They provide a forum for connecting with nursing colleagues facing challenging experiences while trying to care for themselves and others. They are opportunities to connect with one another about difficult or uplifting experiences, to offer and to receive support, and to decrease a sense of isolation.
